## **DETAILED ACTION**

### ***Priority***

The examiner acknowledges for the record that applicant has established that the priority document has been submitted.

### ***Claim Objections Withdrawn***

The objection to claims 14-30, outlined in the previous Office Action, has been overcome by applicant's amendment. The amendment cancels the claims.

### ***Claim Objections Maintained***

The objection to claims 1-13, outlined in the previous Office Action, is maintained for reasons of record. There remain several instances of claims not ending in a period. The claim must end with a period even if the last "text" appearing in the claim is a structure.

### ***Claim Objections, NEW***

Claims 1-13 are objected to because of the following informalities: there are instances of incorrect spelling, for instance, in the final paragraph of claim 2: "wh re." Other instances are similar. Appropriate correction is required.

Applicant's help is respectfully requested in correcting any other minor spelling and/or grammatical errors present in the claims.

***Double Patenting Rejections Withdrawn***

The rejection of claims 1-30, under the judicially created doctrine of obviousness-type double patenting over claim 5 of US 6,242,116, outlined in the previous Office Action, has been overcome by applicant's submission of a Terminal Disclaimer. Claims 14-30 have been canceled.

The rejection of claims 14-30, under the judicially created doctrine of obviousness-type double patenting over claim 5 of US 6,440,585, outlined in the previous Office Action, has been overcome by applicant's amendment. The amendment cancels claims 14-30.

***Double Patenting Rejections Maintained***

The rejection of claims 1-13, under the judicially created doctrine of obviousness-type double patenting, over claim 5 of US 6,440,585, outlined in the previous Office Action, is maintained for reasons of record. Although applicant states that a Terminal Disclaimer has been submitted, no such disclaimer is of record in the application.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which

Art Unit: 1621

applicant regards as the invention. There are instances of inconsistent and therefore unclear changes made to the claims by applicant's amendment. For instance, in claim 2, it is unclear if the aryl group of formula 9 has remains within the metes and bounds of the claim, since the claim teaches "formula (9)," yet the formula is now undefined since the amendment deletes its structure. This inconsistency propagates to claim 3, where substituent R<sup>54</sup> now has no antecedent basis. Other instances are similar.

Applicant's help is respectfully requested in correcting any other inconsistencies and errors introduced into the claims by the amendment.
